

Intervention Matrix

Description:	This tool will help you to get an overview of the existing interventions and to choose the right interventions for your organization.
Goals of the session:	To decide which ECD interventions you can implement as organization.
Audience:	Staff members
Preparation time:	30 minutes
Duration:	1-2 hours
Training method:	Group session
Materials:	Flipchart, papers, pencils.

Introduction

1. Use the outcomes of the ECD Assessment, ECD Scorecard and the community mapping, share the results and present them to the group.
2. Divide the staff members into four groups (Physical, Cognitive, Social and emotional, Spiritual and moral Development). Each group will discuss the outcomes. Ask them to fill in the columns (see Matrix) on papers.
3. Draw the Matrix on the flipchart and ask each group to present the outcomes to the whole group.
4. Evaluate the session and try to come to a consensus to make the matrix final.

The intervention matrix

	Problem	What done already?	What is needed?	By whom?
Physical Development				
Cognitive Development				
Social and Emotional Development				
Spiritual and Moral Development
